Workflow Automation

Davao, Davao Region, Philippines

Summary

Operations and customer experience professional with 11+ years spanning technical support, ecommerce, marketplace management, and retail operations. I have managed online stores across Amazon, eBay, Etsy, Walmart, and Shopify, handling listing optimization, platform compliance, search visibility, and the full cycle of customer messages, complaints, escalations, and replacements. I started in technical support and as an executive assistant to a CEO, wearing multiple hats from troubleshooting to store management. Later I ran retail operations directly as a store manager for a bottle depot in Canada, leading staff and day-to-day operations. Lately I have been adding workflow automation to the mix, building with n8n, GoHighLevel, and Claude to streamline repetitive operations and customer-facing processes.
